

FuturKids

Introduction to **Beehome Course Platform**

(For classroom teaching)

Basic Functions: Courseware download and playback

Personalized Learning System: Track each student's learning progress & Send messages to students

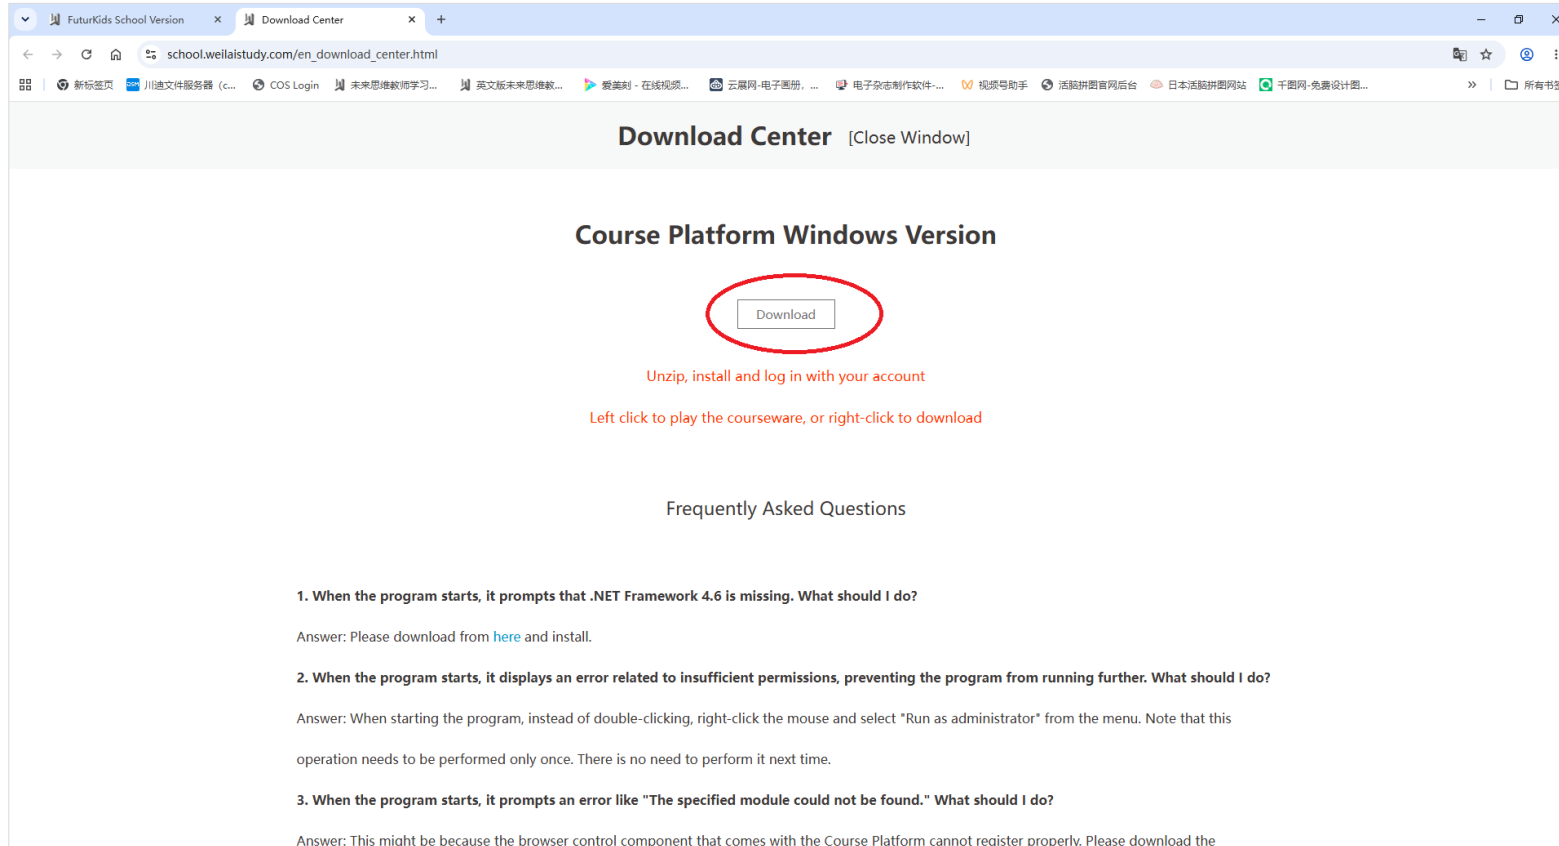

Capability Evaluation System: Initialize an exam

Basic Functions

Courseware download and playback

Download and Install

https://school.weilaistudy.com/en_download_center.html

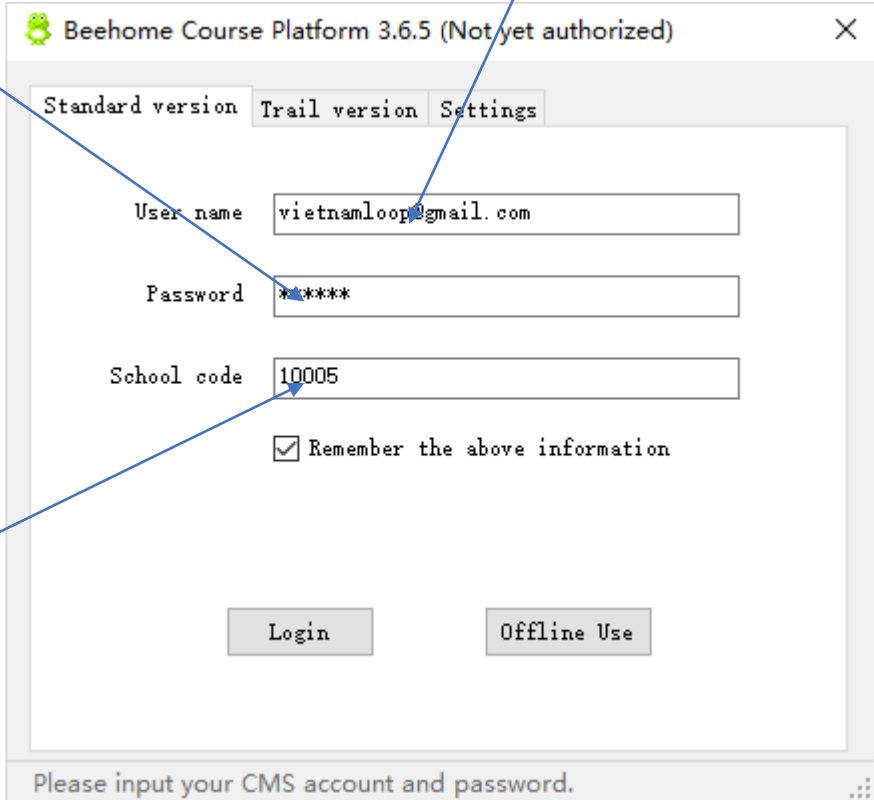

First-time program launch

We will send you the login information before you start using it.

The password

The user account (email account)

The school code

Standard version Trail version Settings

User name vietnamloop@gmail.com

Password *****

School code 10005

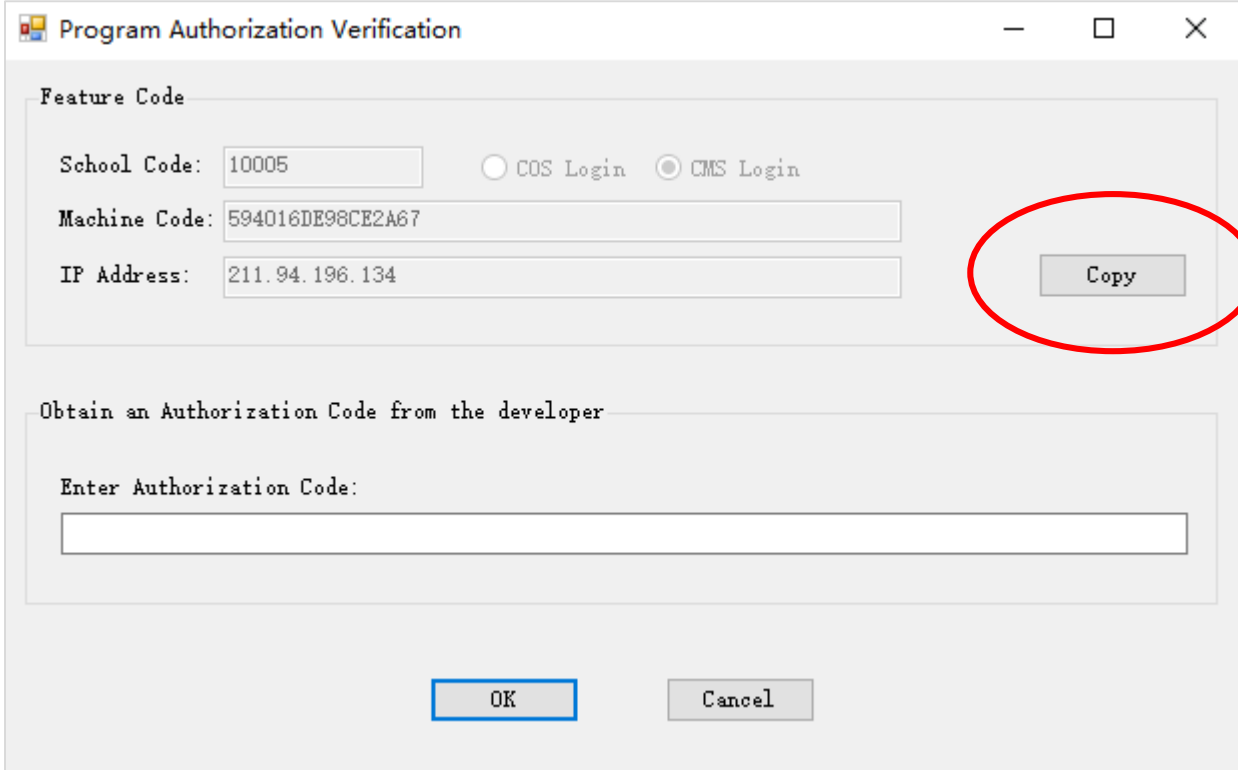

☒ Remember the above information

Login Offline Use

Please input your CMS account and password.

Authorization

First-time login requires authentication.

Program Authorization Verification

Feature Code

School Code: 10005 ☐ COS Login ☒ CMS Login

Machine Code: 594016DE98CE2A67

IP Address: 211.94.196.134

Copy

Obtain an Authorization Code from the developer

Enter Authorization Code:

OK Cancel

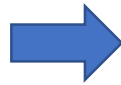

Step 1: Press the “copy” button and send us the content from your clipboard through email or SNS.

Step 2: We will generate and send you an authentication code.

Step 3: Enter the authentication code in the box below to complete the authentication.

Start to use

Press Login button again,
and you will see the main
interface of the course
platform.

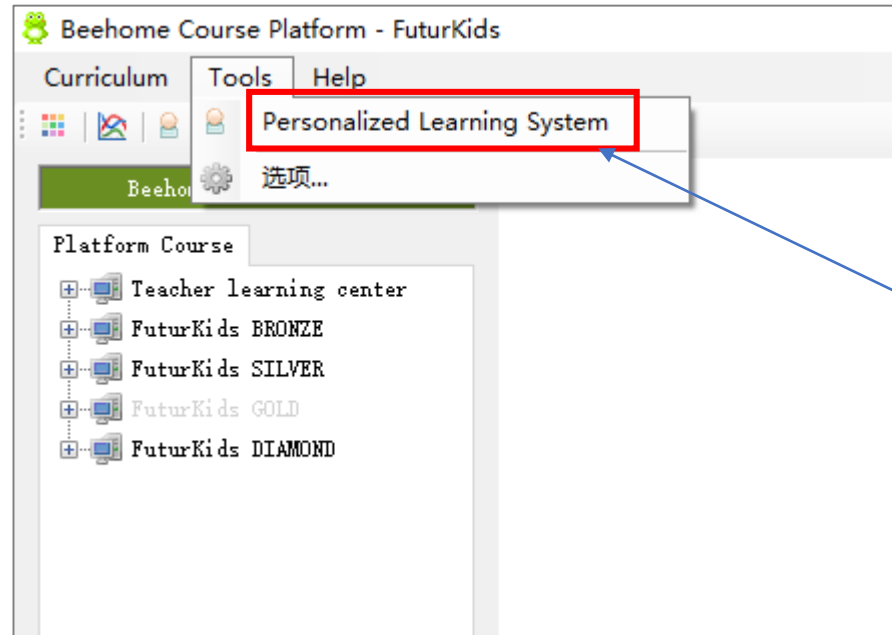

Right click on the node to download the courseware.
Press left mouse button to play the courseware.

Personalized Learning System

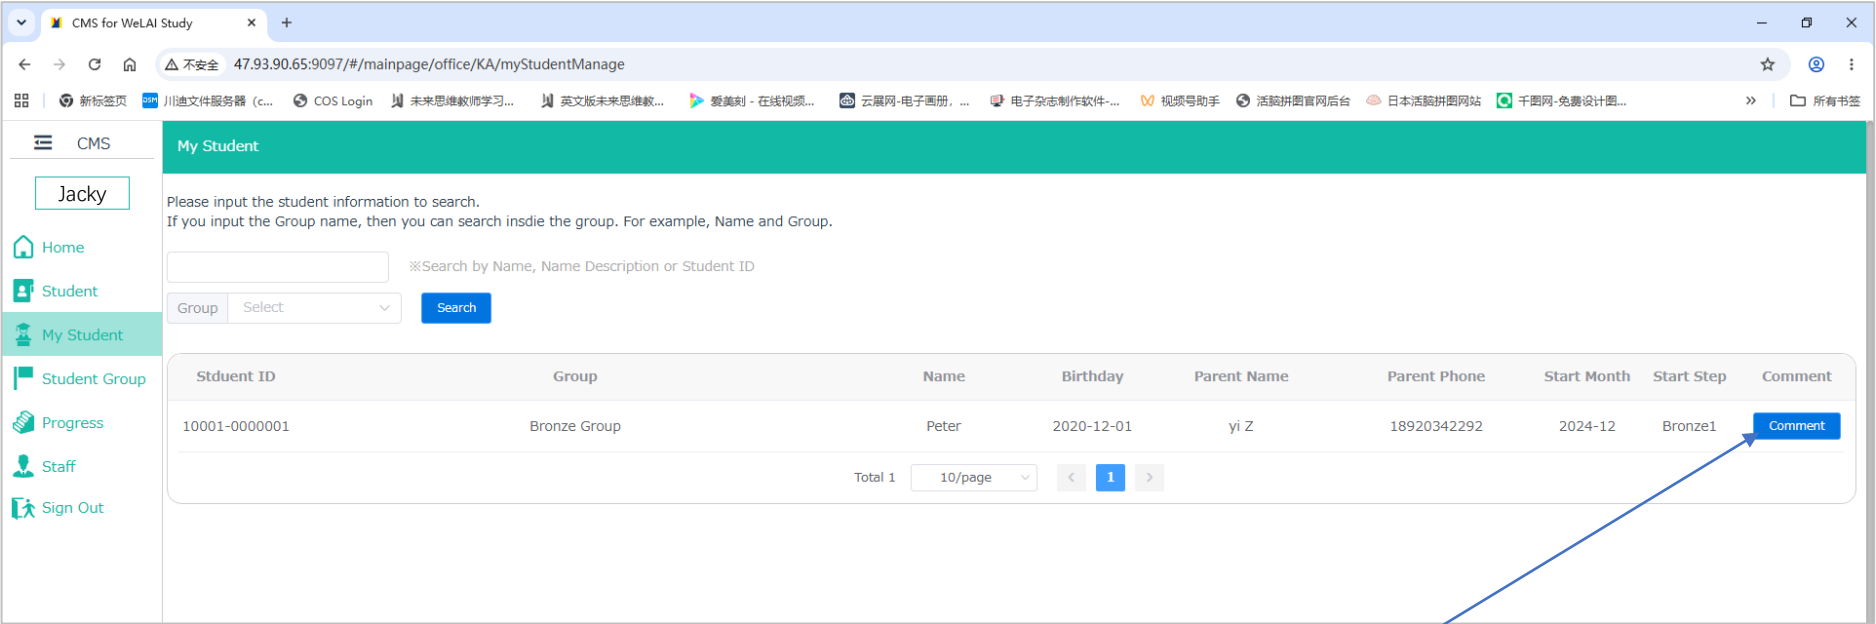

Track each student's learning progress | Send messages to students

Start from the course platform

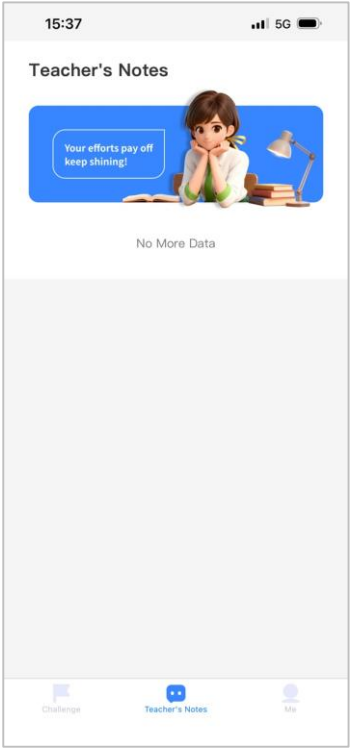

Start from the menu.

Send messages to students

Teachers send messages here.

Students receive messages from teachers in the FuturKids app.

Track each student's learning progress

Write comments and mark it as "Pass", so that you can record the different learning progress of each student. (Suitable for mixed-age group teaching scenarios)

Search the students for whom you want to confirmation or update the learning progress. If you indicated a group, then you can search inside the group.

※Search by Name, Name Description or Student ID

Group Select Search Enabled Grade : Bronze,Silver,Gold,Diamond

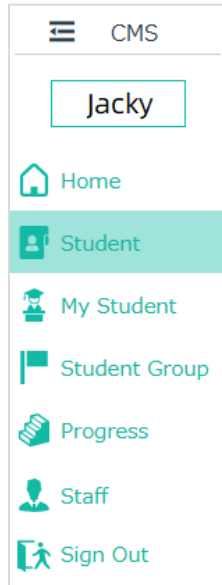

Student ID	Name	Current	Message	Start Month	Pass
10001-0000001	Peter	Bronze2	You are so smart!	2024-12	☐
10001-0000002	Nancy	Silver1		2024-12	☐
10001-0000003	zj	Bronze3	Congratulations!	2025-09	☐
10001-0000004	Jennifer	Bronze1		2025-10	☐

Total 4 10/page < 1 >

Run

Note: The message here will also be pushed to the FuturKids app.

Regarding Menu Permissions

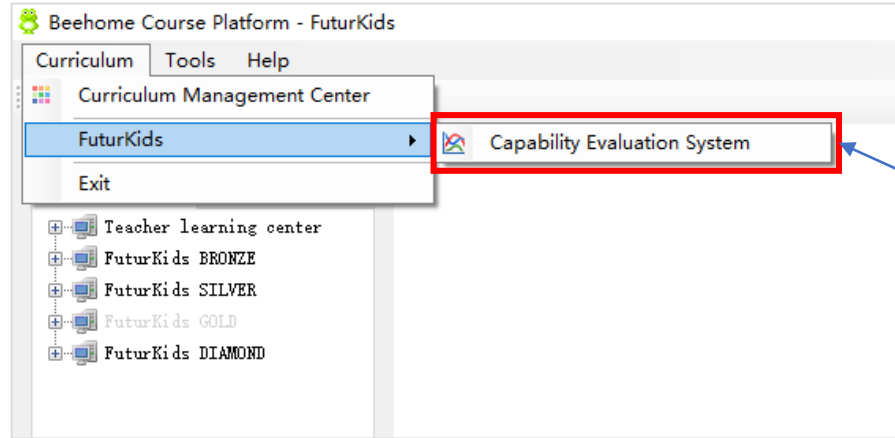

Staff with the “**Sub Administrator**” role can view the “Student” menu and assign responsible teachers to each student on this page.

Teachers with the “**General**” role can only view students under their management.

Capability Evaluation System (CES)

The evaluation results serve to assess students' abilities and the effectiveness of teaching. The evaluation reports can be automatically or manually forwarded to parents, so you can also use evaluations as a means of home-school interaction.

Start from the course platform

Start from the menu.

Initiate an exam (The Menu “Exam Management”)

First, you need to export and print the test papers, distribute them to the children, and then enter their scores into the system after they complete the test. The process below explains how to create an exam based on the selected test paper.

The built-in exam papers

The system comes with some built-in exam papers that can be selected when initiating an exam.

Create a new test paper

Besides the built-in exam papers, you can also create a new test paper by yourself. This feature is located in menu “Test Paper Management”.
